INTRODUCTION

In 1905 this nursery was established by R. J. Coryell and was incorporated in 1915 as The Coryell Nursery. Our business has steadily increased until today we are growing and selling more stock than ever before.

PRICES. These prices obtain for less than 25 of a variety. If larger quantities are wanted we are prepared to submit bids on the stock required.

DELIVERY. We are prepared to deliver full loads of nursery stock anywhere in Greater Detroit during the Spring and Fall seasons, combining orders if necessary. If a special trip is required for less than a full load, delivery will be charged for at cost.

SHIPMENTS. Shipments are made by freight (either D. U. R. electric or Grand Trunk), express or parcel post. All shipments are sent collect and our responsibility for stock ceases when delivery is made to common carrier.

TERMS. Thirty (30) days' credit is extended to regular customers and parties known to us; cash in advance to others, unless satisfactory references are furnished; or 1/3 cash with order, balance C. O. D. payable at destination.

GUARANTEE OF GENUINENESS. We exercise the greatest care to keep our varieties pure and true to name and hold ourselves in readiness at all times to replace on proper proof all stock that may prove otherwise or to refund the amount paid; but we shall not be liable for any sum greater than the amount originally received for said nursery stock.

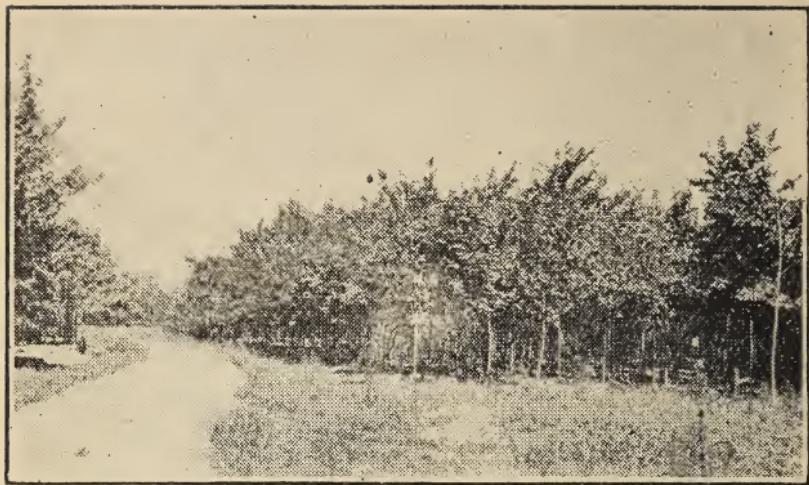

REPLACEMENTS. When satisfied that reasonable care has been given the plants we undertake to replace such plants which shall have died the first season for half the original cost. Our price range has been based on a small margin of profit and does not permit of unlimited free replacement.

LANDSCAPE ADVICE. During the Summer and Winter months we are prepared to furnish landscape sketches to prospective customers. When a personal visit to grounds at a distance is required a charge is made to cover cost of trip. We are glad to advise our customers in their planting at any time.

PLANTING SEASON. The best time for planting is in the dormant season, usually from April 1st to May 15th and from October 1st to November 15th. Evergreens may best be planted during latter part of April and whole month of May in Spring, and September and October in Fall. Spring is usually the better time for fruit, roses and some perennials. For most trees and shrubs we prefer the Fall as the roots are better established by the opening of the growing season.

CARE OF PLANTS—IN PLANTING. On delivery of plants plant immediately if ground is ready. Otherwise, cover the roots with moist soil until ground is prepared. Spade up the soil thoroughly or if it is of poor quality substitute good garden soil or add manure or decomposed leaves to enrich it. Most trees and shrubs should be trimmed at time of planting, about a third or half of the top being removed in the operation.

CARE OF PLANTS—IN GROWING SEASON. Great care must be given to prevent the soil from drying out. The beds should be hoed from time to time in order to subdue weeds and conserve moisture in the soil. Even then it is necessary sometimes to water in addition. Instead of frequent sprinklings soak up the ground thoroughly at less frequent intervals and follow up later by hoeing over the ground. Individual trees are more subject to drying out than larger beds and greater care must be given them. It is not advisable to continue watering too late in the summer, as the wood must ripen.

These Trees Are Spaced Four Feet Apart.

TREES

Our trees are spaced sufficiently apart and transplanted frequently in order to insure excellent root system. With ordinary care they will grow quickly and soon furnish shade. We carry trees for every purpose from that of the small cottage to the largest estate or subdivision.

***Acer campestre*—Cork-bark Maple.**

Very ornamental tree of dwarf habit of growth. Suitable for lawn or ornamental tree.

4 to 5 ft.	-----	\$1.00
5 to 6 ft.	-----	\$1.25

***dasycarpum*—Silver or Soft Maple.**

Desirable fast growing tree for home or road planting. Will grow in almost any soil.

1 $\frac{1}{4}$ to 1 $\frac{1}{2}$ in. caliper	-----	\$1.00
1 $\frac{1}{2}$ to 1 $\frac{3}{4}$ in.	-----	1.25
1 $\frac{3}{4}$ to 2 in.	-----	1.75
2 to 2 $\frac{1}{2}$ in.	-----	2.50
2 $\frac{1}{2}$ to 3 in.	-----	3.50
3 to 3 $\frac{1}{2}$ in.	-----	5.00

A few specimens up to 5 in. diameter.

***negundo*—Box Elder or Ash-leaved Maple.**

Most rapid growing Maple. Suitable for back yard or lake cottage planting.

1 $\frac{1}{2}$ to 2 in.	-----	\$1.00
2 $\frac{1}{2}$ to 3 in.	-----	2.50
2 to 2 $\frac{1}{2}$ in.	-----	1.50

platanoides—Norway Maple.

Sturdy tree of compact growth, slower than Silver Maple, but more lasting. Prefers a clay loam soil.

1 $\frac{1}{4}$ to 1 $\frac{1}{2}$ in.	\$1.50
1 $\frac{1}{2}$ to 1 $\frac{3}{4}$ in.	2.00
1 $\frac{3}{4}$ to 2 in.	2.50
2 to 2 $\frac{1}{2}$ in.	3.50
2 $\frac{1}{2}$ to 3 in.	5.00

A few specimens up to 8 in. diameter.

saccharum—Sugar or Hard Maple.

A handsome tree. Rather slow in starting, but grows well afterwards. Prefers a gravelly soil with well drained subsoil.

1 $\frac{1}{2}$ to 1 $\frac{3}{4}$ in.	\$1.75
1 $\frac{3}{4}$ to 2 in.	2.50
2 to 2 $\frac{1}{2}$ in.	3.50

schwedleri—Schwedler's Maple.

Leaves of reddish-purple offer fine contrast to other trees. Very much in demand.

1 $\frac{1}{4}$ to 1 $\frac{1}{2}$ in.	\$2.50
1 $\frac{1}{2}$ to 1 $\frac{3}{4}$ in.	3.50
1 $\frac{3}{4}$ to 2 in.	4.50
2 to 2 $\frac{1}{2}$ in.	6.00

wierri—Wier's Cut-leaved Maple.

Lacy foliage and drooping habit of branches present a beautiful appearance. Grows quite rapidly.

1 $\frac{1}{2}$ to 1 $\frac{3}{4}$ in.	\$2.00
1 $\frac{3}{4}$ to 2 in.	3.00
2 to 2 $\frac{1}{2}$ in.	4.00

A few specimens up to 4 in. diameter.

Alnus glutinosa—European Alder.

Quick growing tree of upright habit. Suitable for mass planting in moist situations.

1 $\frac{1}{2}$ to 2 in.	\$1.00
2 to 2 $\frac{1}{2}$ in.	1.25

Betula alba—White Birch.

Noted for its white bark, presenting a beautiful appearance at all seasons. Prefers lowlands and moist soil.

1 $\frac{1}{2}$ to 2 in.	\$1.75
2 to 2 $\frac{1}{2}$ in.	2.50
2 $\frac{1}{2}$ to 3 in.	3.50

A few specimens up to 4 in. diameter.

alba pendula—Cut Leaf Birch.

Lacy foliage, otherwise similar to White Birch. Very popular.

6 to 8 ft. in height	\$3.50
----------------------	--------

Catalpa Bungei—Umbrella Tree.

Globe-shaped head on straight stem. Used for formal effect.

2 yr. head-----	\$2.00
3 yr. head-----	3.00

Cercis canadensis—Red Bud.

Blooms in early spring. Purple or rosy flowers.

4 to 6 ft.-----	\$1.00
-----------------	--------

Crataegus oxyacantha alba flore pleno—Double White Thorn.

Beautiful white bloom and irregular habit of growth characterize this dwarf tree.

4 to 5 ft.-----	\$1.50
-----------------	--------

oxyacantha paulii—Paul's Scarlet Thorn.

Brilliant red bloom. Very desirable.

4 to 5 ft.-----	\$2.00
-----------------	--------

Fagus sylvatica—Purple Beech.

Slow growing tree of striking purple foliage.

4 to 5 ft.-----	\$2.00
5 to 6 ft.-----	3.00

Fraxinus americana—White Ash.

Sturdy native tree of long life. Fine for country planting.

1 1/2 to 2 in.-----	\$1.50
2 to 2 1/2 in.-----	2.50
2 1/2 to 3 in.-----	3.50

viridissima—Green Ash.

Smoothen bark than White Ash and as desirable.

1 1/2 to 2 in.-----	\$1.25
2 to 2 1/2 in.-----	2.00

Ginkgo biloba—Maidenhair Tree.

Very odd Chinese tree of irregular growth. A conifer with deciduous leaves.

4 to 5 ft.-----	\$1.25
-----------------	--------

Juglans cinerea—Butternut.

Native tree valuable for nuts as well as shade.

1 1/4 to 1 1/2 in.-----	\$1.25
1 1/2 to 2 in.-----	1.75

nigra—Black walnut.

Similar growth as above.

4 to 5 ft.-----	\$.75
-----------------	--------

Larix europea—European Larch.

Noted for soft feathery foliage. Fine for group effect in country estate planting.

5 to 6 ft.-----	\$1.50
6 to 8 ft.-----	2.00

Liriodendron tulipifera —Tulip Tree or Whitewood.	
Glossy leaves, tulip-shaped flowers of large size.	
1 1/2 to 2 in.....	\$1.25
2 to 2 1/2 in.....	2.00

Morus alba pendula —Tea's Weeping Mulberry.	
Small tree of drooping habit. Suitable for planting in a small yard.	
2 yr. head.....	\$2.50

Platanus occidentalis —Sycamore or American Plane Tree.	
Strong growing tree of silvery foliage. Used for street, road or country planting.	
1 1/2 to 2 in.....	\$1.25
2 to 2 1/2 in.....	2.00

Populus bolleana —Bollean Poplar.	
Upright, compact habit and very quick grower.	
Foliage is silvery gray.	
1 3/4 to 2 in.....	\$1.25
2 to 2 1/2 in.....	1.75
2 1/2 to 3 in.....	2.50

deltoides —Carolina Poplar.	
Most rapid growing tree. Recommended for planting in large open spaces for quick effect.	
2 to 2 1/2 in.....	\$1.25
2 1/2 to 3 in.....	1.50

nigra italica —Lombardy Poplar.	
Slim, tall tree. Very effective for formal effect or screen. Very rapid grower.	
1 1/4 to 1 1/2 in.....	\$1.00
1 1/2 to 1 3/4 in.....	1.25
1 3/4 to 2 in.....	1.50
2 to 2 1/2 in.....	2.00
2 1/2 to 3 in.....	3.00

A few specimens up to 4 in. diameter.

Prunus pissardi —Purple Plum.	
Leaves of striking purple color. Used in tree or shrub planting. Grows 8 to 12 ft. in height.	
4 to 5 ft.....	\$1.25

Pyrus ioensis —Bechtel's Crab.	
Most showy and fragrant of the trees used for ornamental effect. Grows 8 to 10 ft. in height.	
3 to 4 ft.....	\$1.00

Quercus rubra —Red Oak.	
Effective for its beautiful reddish foliage in fall.	
Prefers lighter soils and uplands.	
1 1/4 to 1 1/2 in.....	\$1.50
1 1/2 to 2 in.....	2.00
2 to 2 1/2 in.....	2.50

Salix vitellina britzensis—Golden Willow.

Beautiful informal effect of drooping branches and golden bark. Quick grower. Fine for lake planting.

2 to 2½ in.	\$1.50
2½ to 3 in.	2.50
A few specimens up to 6 in. diameter.	

lucida.

Beautiful dark green Willow.

5 to 6 ft.	\$.50
6 to 8 ft.	.75

Wisconsin—Wisconsin Willow.

Another popular Willow.

6 to 8 ft.	\$.75
8 to 10 ft.	1.00

Sorbus aucuparia—Mountain Ash.

Delicate foliage. Clusters of red berries. Strong demand for lawn planting.

6 to 8 ft.	\$1.75
------------	--------

Tilia americana—Basswood.

Fast growing tree. Grows almost anywhere.

1½ to 2 in.	\$1.00
2½ to 3 in.	3.00

A few specimens up to 4 in. diameter.

Ulmus americana—American Elm.

Most stately of all trees. Most desirable for street planting. We have a large stock of Elms from 1½ to 3 inch sizes, suitable for street planting.

1¼ to 1½ in.	\$1.00
1½ to 1¾ in.	1.50
1¾ to 2 in.	2.00
2 to 2¼ in.	2.25
2¼ to 2½ in.	2.50
2½ to 3 in.	3.50
3 to 3½ in.	5.00

A few specimens up to 8 in. diameter.

glabra camperdownii—Camperdown Elm.

Elm of drooping and dwarf habit.

3 yr. head	\$3.00
------------	--------

montana—Scotch Elm.

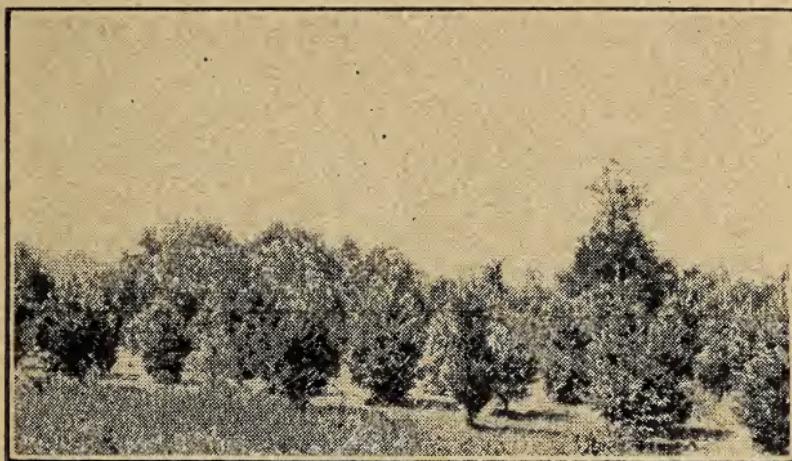

Spreading branches forming roundish head.

1½ to 2 in.	\$1.50
2 to 2½ in.	2.00

***racemosa*—Cork Bark Elm.**

Noted for corky ridges on stems. Rather slow growing.

1 $\frac{1}{2}$ to 2 in.	\$1.75
2 to 2 $\frac{1}{2}$ in.	2.50

Specimen Evergreens For Your Home Grounds.

EVERGREENS

Our evergreens have been frequently transplanted. They are suitable for specimen or mass planting. Where there is any variation in the grade of evergreens we recommend the bushy grade for specimen planting.

***Abies concolor*—Silver Fir.**

Beautiful evergreen of symmetrical growth and silvery green color. Fine for specimen planting.

2 to 2 $\frac{1}{2}$ ft.	\$3.00
2 $\frac{1}{2}$ to 3 ft.	4.00

***Juniperus communis*—English Juniper.**

Irregular growth. Prickly needles of beautiful glaucous tint. Excellent for natural effect.

3 to 4 ft.	\$2.00
4 to 5 ft.	3.00

***communis hibernica*—Irish Juniper.**

A slim, compact Juniper. Very good for formal effect.

2 to 2 $\frac{1}{2}$ ft.	\$2.00
2 to 3 ft.	3.00

communis suecia—Swedish Juniper.

Somewhat similar to Irish Juniper, but growth is not as compact. One of the best of the newer varieties.

2 to 2½ ft.	\$1.00
2½ to 3 ft.	1.50

horizontalis—Horizontal or Trailing Juniper.

A dwarf Juniper with long spreading branches. Excellent for ground cover.

15 to 18 in.	\$2.50
--------------	--------

sabina—Savin Juniper.

A well known dwarf variety. Branches not as long as those of *Juniperus horizontalis*.

12 to 15 in.	\$1.50
15 to 18 in.	2.50

virginiana—Red Cedar.

Beautiful evergreen of dark green color and heavy growth.

2 to 3 ft.	\$1.25
3 to 4 ft.	2.00
4 to 5 ft.	3.00

virginiana glauca—Silver Cedar.

Noted for its bluish tinge and long, wavy branches.

3 to 4 ft.	\$3.50
4 to 5 ft.	5.00

Picea canadensis—White Spruce.

Symmetrical Spruce of silvery gray color. Very effective in tubs and with greener varieties.

2 to 2½ ft.	\$1.75
2½ to 3 ft.	2.50
3 to 4 ft.	3.50
4 to 5 ft.	5.00

excelsa—Norway Spruce.

A rapid growing evergreen of strong green color. Very hardy and adaptable to any soil or climate. May be used for mass or hedge planting, as well as individually. Can quote in hundred lots in most sizes.

2 to 3 ft.	\$1.00
3 to 4 ft.	1.50
3 to 4 ft. bushy	2.50
4 to 5 ft.	2.50
4 to 5 ft. bushy	3.50
5 to 6 ft.	3.50
5 to 6 ft. bushy	4.50
6 to 7 ft.	5.00
6 to 7 ft. bushy	6.00
7 to 8 ft.	8.00

A few specimens up to 12 ft. in height.

***pungens*—Colorado Blue Spruce.**

Very hardy Spruce of light blue color. Very popular and somewhat scarce.

12 to 15 in.	\$2.00
15 to 18 in.	2.50
18 to 24 in.	3.50
2 to 2 1/2 ft.	4.50
2 1/2 to 3 ft.	6.00

A few specimens up to 4 ft. in height.

***Pinus montana mughus*—Dwarf Mountain or Mugho Pine.**

Hardy ground Pine of great merit. Fine for foreground planting. Strong demand and rather scarce at present.

12 to 15 in.	\$1.50
15 to 18 in.	2.00
18 to 24 in.	3.00
2 to 3 ft.	4.00

***nigra austriaca*—Austrian Pine.**

Evergreens of strong growing habit and stiff branches and needles. Can grow in drier soils.

2 to 3 ft.	\$1.50
3 to 4 ft.	2.50

***resinosa*—Red Pine.**

Very hardy and a vigorous grower.

15 to 18 in.	\$.75
--------------	--------

***strobos*—White Pine.**

Beautiful tall growing evergreen with soft needles of silvery bluish-green color. Not adapted to heavy clay soil.

2 to 3 ft.	\$1.25
3 to 4 ft.	2.00

A few specimens up to 14 ft. in height.

***sylvestris*—Scotch Pine.**

Fast growing evergreen with short, flexible needles. Excellent for mass background planting.

15 to 18 in.	\$.50
18 to 24 in.	.75
3 to 4 ft.	2.00
4 to 5 ft.	3.00
5 to 6 ft.	4.00

***Pseudotsuga douglasii*—Douglas Spruce.**

Handsome, rapid growing, Colorado evergreen of upright growth. Needles of glaucous green color.

2 to 3 ft.	\$2.00
3 to 4 ft.	3.00
4 to 5 ft.	4.50
5 to 6 ft.	6.00

A few specimens up to 10 ft. in height.

Retinospora plumosa—Plumed Japanese Cypress.

Very graceful evergreen of plume-like branches.
18 to 24 in.-----\$1.75
2 to 3 ft.-----2.50
3 to 4 ft.-----3.50

Thuya occidentalis—Arbor Vitae.

A moisture-loving evergreen of soft foliage, readily adaptable to shearing. Used extensively in flanking white houses where it affords a fine green contrast. It is often used in formal gardens and for hedges.

18 to 24 in.-----\$.75
2 to 3 ft. bushy-----1.50
3 to 4 ft.-----1.50
3 to 4 ft. bushy-----2.50
4 to 5 ft.-----2.50
4 to 5 ft. bushy-----3.50
5 to 6 ft.-----4.00
5 to 6 ft. bushy-----5.00

A few specimens up to 8 ft. in height.

occidentalis compacta—Compact Arbor Vitae.

A dwarf globe-shaped Arbor Vitae. One of the newer varieties.

10 to 12 in.-----\$1.00

occidentalis globosa—Globe Arbor Vitae.

A well known variety, somewhat faster growing than the former. Used extensively in tubs and for formal planting.

12 to 15 in.-----\$1.50
15 to 18 in.-----2.00
18 to 24 in.-----3.00

occidentalis pyramidalis—Pyramidal Arbor Vitae.

A slender, tall, compact form. Very popular and used for formal planting where the effect of height is desired.

18 to 24 in.-----\$1.00
2 to 2 1/2 ft.-----1.50
2 1/2 to 3 ft.-----2.00
3 to 3 1/2 ft.-----2.50
3 1/2 to 4 ft.-----3.00
4 to 4 1/2 ft.-----4.00
4 1/2 to 5 ft.-----5.00
5 to 6 ft.-----6.00

A Block Of Thrifty Young Shrubs.

SHRUBS

These Shrubs are grown with ample roots and stocky tops. They are not to be compared with the slim stock often sold with two or three stems to a plant. These varieties are selected as the most hardy of their species and do well in Michigan. The height following the name is that obtained after a few years.

Amygdalis communis—Flowering Almond. Eventual Height, 4 to 5 ft.

Button-like flowers appear before the leaves in spring.

2 to 3 ft.-----\$.60

Althea—pink, white or red. 6 to 8 ft.

Tall, erect shrub. Large flowers appear late in summer.

3 to 4 ft.-----\$.50

Amelanchier—Shad Bush. 8 to 10 ft.

Popular for white flowers, followed by berries.

18 to 24 in.-----\$.50

Aralia pentaphylla—Five-leaved Angelica. 4 to 5 ft.

A stiff-branched shrub of pretty leaf formation. Desirable for landscape effects.

2 to 3 ft.-----\$.40

3 to 4 ft.-----.60

Berberis thunbergii—Dwarf Barberry. 3 to 4 ft.

A compact shrub used extensively for hedges and border planting. Leaves are bright green in summer, turning to red in fall. Red berries throughout the winter.

12 to 15 in.	\$.15
15 to 18 in.	.20

Buddleia magnifica—Butterfly Bush. 4 to 5 ft.

Graceful branches, bearing long plumes of blue flowers. Attracts butterflies.

2 to 3 ft.	\$.50
------------	--------

Cephalanthus occidentalis—Button Bush. 6 to 8 ft.

Tall growing shrub with fragrant button-like flowers appearing in July.

2 to 3 ft.	\$.40
------------	--------

Cornus alba siberica—Red-branched Dogwood. 6 to 8 ft.

Tall growing shrub. Branches turn bright red in winter. Showy shrub for mass background planting.

3 to 4 ft.	\$.40
4 to 5 ft.	.60
5 to 6 ft.	.80

ammomum—Silky Dogwood. 6 to 8 ft.

Growth similar to above, but berries are blue-black in color.

3 to 4 ft.	\$.40
4 to 5 ft.	.60

florida—Flowering Dogwood. 10 to 12 ft.

A tall shrub or tree with beautiful mass of white flowers in spring.

3 to 4 ft.	\$ 1.25
------------	---------

sanguinea viridissima. 6 to 8 ft.

Pale green foliage with green branches.

18 to 24 in.	\$.30
--------------	--------

stolonifera—Red Osier.

Willowy branches turning red in winter.

2 to 3 ft.	\$.40
------------	--------

flaviramea—Yellow Dogwood.

Branches are yellow in color, offering striking contrast to other shrubs.

2 to 3 ft.	\$.50
------------	--------

Cydonia japonica—Japanese Quince. 5 to 6 ft.

Noted for mass of scarlet bloom early in spring.

2 to 3 ft.	\$.40
3 to 4 ft.	.60

Deutzia gracilis—Slender Branched Deutzia. 2 ft.

A low dense shrub covered with white bloom in May.

12 to 15 in.	\$.30
--------------	--------

lemoinei—Lemoine's Deutzia. 3 to 4 ft.

Half dwarf. Clusters of white flowers along stems in summer.

15 to 18 in.-----\$.30

scabra—Pride of Rochester. 4 to 5 ft.

Taller variety with large, double white flowers.

18 to 24 in.-----\$.30

3 to 4 ft.----- .40

4 to 5 ft.----- .60

Eleagnus augustifolia—Russian Olive. 8 to 12 ft.

Tall shrub or small tree with whitish gray leaves.

It is very effectice for a tall trimmed hedge.

2 to 3 ft.-----\$.40

3 to 4 ft.----- .60

Evonymus europeaus—European Strawberry Tree. 8 to 10 ft.

Tall, slim shrub. Masses of rose colored fruit in fall.

2 to 3 ft.-----\$.40

Forsythia intermedia—Golden Bell. 5 to 8 ft.

Noted for bright yellow bloom before leaves appear in spring. All the Forsythia family should be trimmed after flowering.

3 to 4 ft.-----\$.40

4 to 5 ft.----- .60

suspensa—Drooping Golden Bell. 5 to 6 ft.

Drooping habit of branches; very graceful.

2 to 3 ft.-----\$.40

suspensa Fortunei—Fortune's Golden Ball. 5 to 6 ft.

An erect variety. Showy flowers and dainty leaves.

3 to 4 ft.-----\$.40

4 to 5 ft.----- .60

viridissima. 6 to 8 ft.

Flowers not as light in color as other varieties.

2 to 3 ft.-----\$.40

Hydrangea arborescens grandiflora—Hills of Snow.

4 to 5 ft.

Very showy shrub. Large balls of white bloom in midsummer. All the Hydrangeas should be trimmed well every spring.

2 to 3 ft.-----\$.60

3 to 3 1/2 ft.----- .80

paniculata grandiflora—Garden Hydrangea. 3 to 4 ft.

Well known Hydrangea. Large balls of white bloom appearing in August, turning to flesh color later.

18 to 24 in.-----\$.40

3 to 3 ft.----- .60

Tree Hydrangea. 5 to 6 ft.

3 to 4 ft.-----\$ 1.00

Kerria japonica—Globe Flower. 2 to 3 ft.

Dwarf shrub with green stems and early yellow flowers.

18 to 24 in.	\$.35
2 to 3 ft.	.50

Ligustrum amurense—Amoor River Privet. 5 to 6 ft.

Hariest Privet known. Excellent for hedges.

18 to 24 in.	\$.15
2 to 3 ft.	.20
3 to 4 ft.	.25

ibota regelianum—Regel's Privet. 4 to 5 ft.

Shrubby, horizontal growth recommends this shrub for foreground mass planting. Hardy and desirable.

15 to 18 in.	\$.20
18 to 24 in.	.30
2 to 3 ft.	.40

ovalifolium—California Privet. 5 to 6 ft.

Well known hedge plant. While not as hardy as Amoor River Privet, it is popular and widely used.

15 to 18 in.	\$.08
18 to 24 in.	.10
2 to 3 ft.	.15

Lonicera bella albida—Bush Honeysuckle. 8 to 10 ft.

Large shrub with white flowers followed by the most showy red berries of any of the Honeysuckles. Fine for background.

3 to 4 ft.	\$.40
4 to 5 ft.	.60

morrowi—Morrow's Bush Honeysuckle. 8 to 10 ft.

More bushy than the preceding. White flowers and red fruit.

4 to 5 ft.	\$.60
------------	--------

tatarica—Tartarian Honeysuckle. 8 to 10 ft.

Best known Bush Honeysuckle. Flowers white. Very rapid grower.

4 to 5 ft.	\$.60
5 to 6 ft.	.80

tatarica grandflora rosea—Pink Bush Honeysuckle.

7 to 8 ft.

Very good pink flowering variety.

4 to 5 ft.	\$.60
------------	--------

Opulaster opulifolia—Ninebark Spiraea. 8 to 10 ft.

Strong growing shrub with rough, scaly bark. Recommended for background planting.

3 to 4 ft.	\$.60
------------	--------

Philadelphus coronarius—Syringa or Mock Orange. 8 to 10 ft.

Popular tall growing shrub with masses of large, fragrant white flowers in midsummer.

2 to 3 ft.	\$.40
3 to 4 ft.	.60

<i>coronarius foliis aureis</i>	—Golden Syringa.	3 to 4 ft.
Bright golden foliage and white flowers characterize this shrub.		
15 to 18 in.		\$.60
<i>lemoinei</i>	—Lemoine's Syringa.	4 ft.
Slender branches, and double white flowers.		
2 to 3 ft.		\$.50
<i>Prunus triloba</i>	—Flowering Plum.	
Noted for wealth of beautiful flowers.

VINES

These are the hardier vines suited to Michigan weather conditions. Any need for a vine can be filled by one of these varieties.

Ampelopsis quinquefolia—Virginia Creeper. 12 to 20 ft.

Rapid growing vine, suitable for heavy screen of veranda or trellis. Does not cling to stone or brick.

2 yr.	\$.30
-------	--------

veitchii—Boston Ivy. 20 to 50 ft.

Best clinging vine for brick, stone or stucco.

2 yr.	\$.30
-------	--------

Celastrus scandens—Bitter Sweet. 12 to 15 ft.

Glossy foliage. Clusters of red berries.

2 yr.	\$.30
-------	--------

Clematis Jackmanni—Purple Clematis. 8 to 10 ft.

Very large, dark purple flower. Appearance is beautiful.

2 yr.	\$ 1.00
-------	---------

paniculata—Japanese or White Clematis. 10 to 12 ft.

This attractive vine is covered with a mass of white flowers. Suitable for trellis.

2 yr.	\$.30
-------	--------

3 yr.	.40
-------	-----

Lonicera japonica halleana—Hall's Honeysuckle. 8 to 12 ft.

Flowers white, turning to yellow. Best flowering vine for veranda shade.

2 yr.	\$.30
-------	--------

3 yr.	.40
-------	-----

Tecoma radicans—Trumpet Vine. 8 to 12 ft.

Trumpet-shaped flowers of red shade.

2 yr.	\$.30
-------	--------

Wisteria sinensis—Wistaria. 12 to 20 ft.

One of the best vines where long growth is desired.

2 yr.	\$.40
-------	--------

Evonymus radicans vegetus.

Vine of glossy leaves and evergreen habit.

2 yr.	\$.50
-------	--------

Grapes. In many cases the fruiting Grapes are desirable for arbor planting.

ROSES

There is scarcely a more desirable possession than a good Rose Garden. After discarding a good many varieties we are now carrying the following good Roses:

Hybrid Perpetual Roses—Monthly Roses.

First grade -----	\$.70
Anna Diesbach—carmine.	
Captain Hayward—scarlet.	
Clio—flesh color.	
Frau Karl Druschki—best white.	
General Jacqueminot—bright crimson.	
Harrison Yellow—yellow.	
John Hopper—rose-carmine.	
Magna Charta—crimson.	
Mrs. John Laing—pink.	
Mrs. R. G. Sharman Crawford—deep pink.	
Paul Neyron—rose.	
Ulrich Brunner—red.	

Hybrid Tea Roses.

Good flowering sorts. Flowers are more beautiful than those of H. P. varieties, but plants are not quite as hardy.

First grade -----	\$.60
Grus an Teplitz—crimson scarlet.	
Ophelia—salmon-flesh color.	
White Killarney—white.	

Baby Rambler Roses.

White, Red or Pink.

First grade -----	\$.70
-------------------	--------

Climbing Roses.

First grade—\$.40 unless otherwise noted

American Pillar. \$.50.

Baltimore Belle.

Climbing American Beauty. \$.50.

Crimson Rambler.

Dorothy Perkins.

Excelsa.

Flower of Fairfield.

Hiawatha.

Seven Sisters.

Tausendschon. \$.50.

White Dorothy Perkins.

Wild Roses.

These may be used for planting banks or large beds.

Rosa rugosa. 2 to 3 ft. ----- \$.40

Rosa carolina. 2 to 3 ft. ----- .40

Rosa setigera. 2 to 3 ft. ----- .40

Rosa lucida. 18 to 24 in. ----- .30

PERENNIALS

There is a constantly increasing demand for good Perennials. They are much more satisfactory than annual plants, as they continue to spring forth without effort on the part of the planter. These varieties are selected for their general worth and adaptability to our climate and soils.

Prices, unless otherwise noted:—

Large Clump	-----	\$.25
Medium Clump	-----	.20
Small Clump	-----	.15

***Anchusa italicica*—Dropmore.**

Blue flower in June. Height of plant 3 ft.

***Eclipta asteroides*—False Chamomile.**

Tall, white. Flowers midsummer. 3 to 5 ft.

***Chrysanthemum leucanthemum*—Shasta Daisy.**

White, yellow center. June, July. 2 ft.

***Coreopsis lanceolata grandiflora*—Coreopsis.**

Yellow. All summer. 2 ft.

***Delphinium chinensis*—Blue Chinese Larkspur.**

Blue. All summer. 3 to 4 ft.

belladonna—light blue Larkspur. Summer. 4 to 5 ft.

bellamosa—new dark blue. Summer. 4 to 5 ft.

formosum—dark blue. Summer. 4 to 5 ft.

Gold Medal Hybrids—large flowers, various combinations. 4 to 5 ft.

***Dianthus plumarius*—Garden Pink.**

Various shades of pink. Early summer. 1 ft.

Sweet William.

Pink and red. Summer. 1 to 2 ft.

***Gaillardia grandiflora*—Blanket Flower.**

Orange and yellow. Summer. 2 ft.

***Heliopsis Pitcheriana*—Orange Sunflower.**

Orange. July to September. 3 ft.

***Hemerocallis Dunmortier*—Day Lily.**

Yellow. June. 1 to 2 ft.

***Thunbergii*—Lemon Day Lily.**

Lemon Yellow. June. 3 ft.

Hollyhock.

Double—rose, white, yellow, red, maroon and mixed.

Single—pink, white, and salmon rose.

Midsummer. 5 to 6 ft.

***Iris*—German.** Spring. 1 to 2 ft.

Honorabilis—yellow.

Florentina Alba—white.

Pallida Dalmatica—light blue.

Queen of the May—lavender.

Purple Prince—purple.

Japanese—assorted colors.

Lupinus polyphyllus.

White, rose, or purple. Large flowers. Summer.
2 ft.

Lychnis chalcedonia—Maltese Cross.

Red flowers. Summer. 2 ft.

Paeonia.

A well balanced selection of good sorts. Our plants
are well sized and should flower the first season.
Flower in spring. 2 to 3 ft.

		Large	Medium
Alba Sulphurea	yellow-white	\$.60	\$.40
Albert Crousse	late, rose-white, large	.80	.60
